Supporting our frontline, online.

NHS
Councils
Government
Police

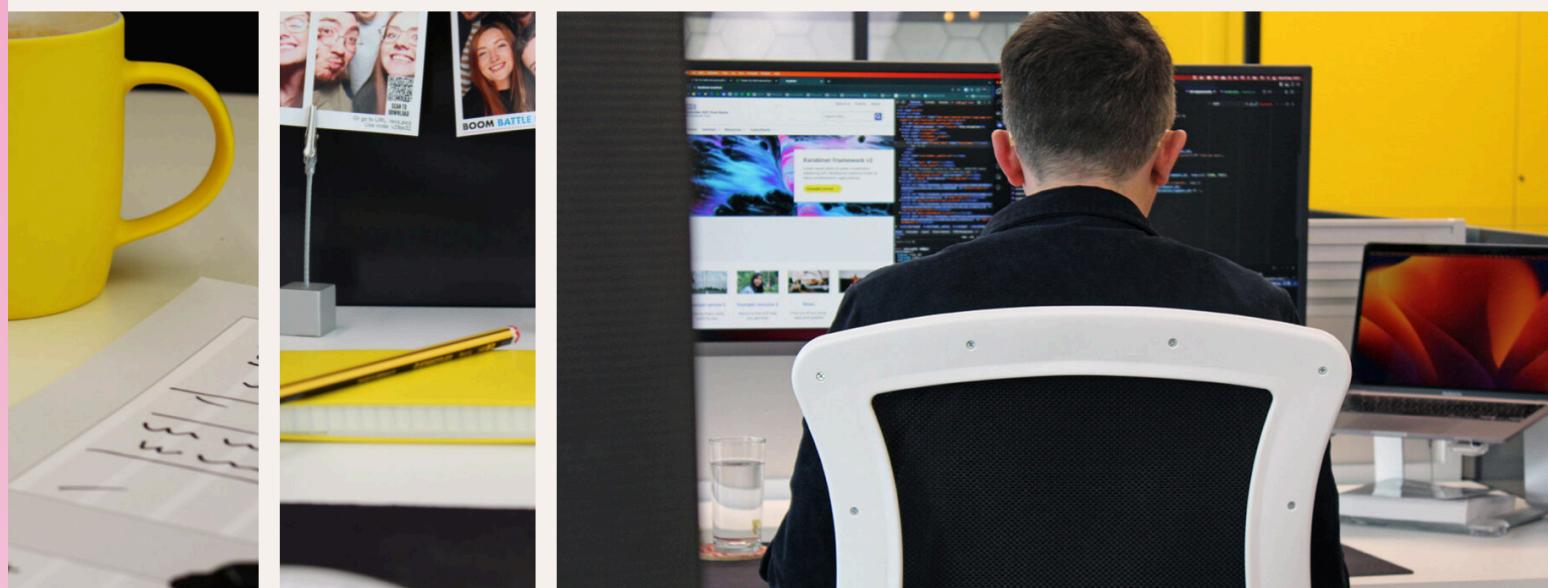

A digital agency committed to the public sector.

Mixd is a user-centred digital agency committed to the public sector. We design and build fast, accessible and sustainable websites that support our frontline, online.

[See our work](#)

Building enduring partnerships with the NHS, Police and the wider public sector.

Founded in 2004, Mixd is a user-centred digital agency specialising in web accessibility. We're a multidisciplinary team of designers, engineers and delivery experts with a diverse mix of user experience design expertise. We work extensively with the NHS and wider public sectors, helping teams to create and run great public services.

Our services:

We use user-centred research and design principles to transform users' experiences.

User research

Helps us learn about your users and create inclusive services that meet user needs.

UX design

Engineering

Fast, accessible, responsive frontend code that adheres to WCAG standards.

Web accessibility

Accessibility audits, training and consultancy to help meet accessibility regulations.

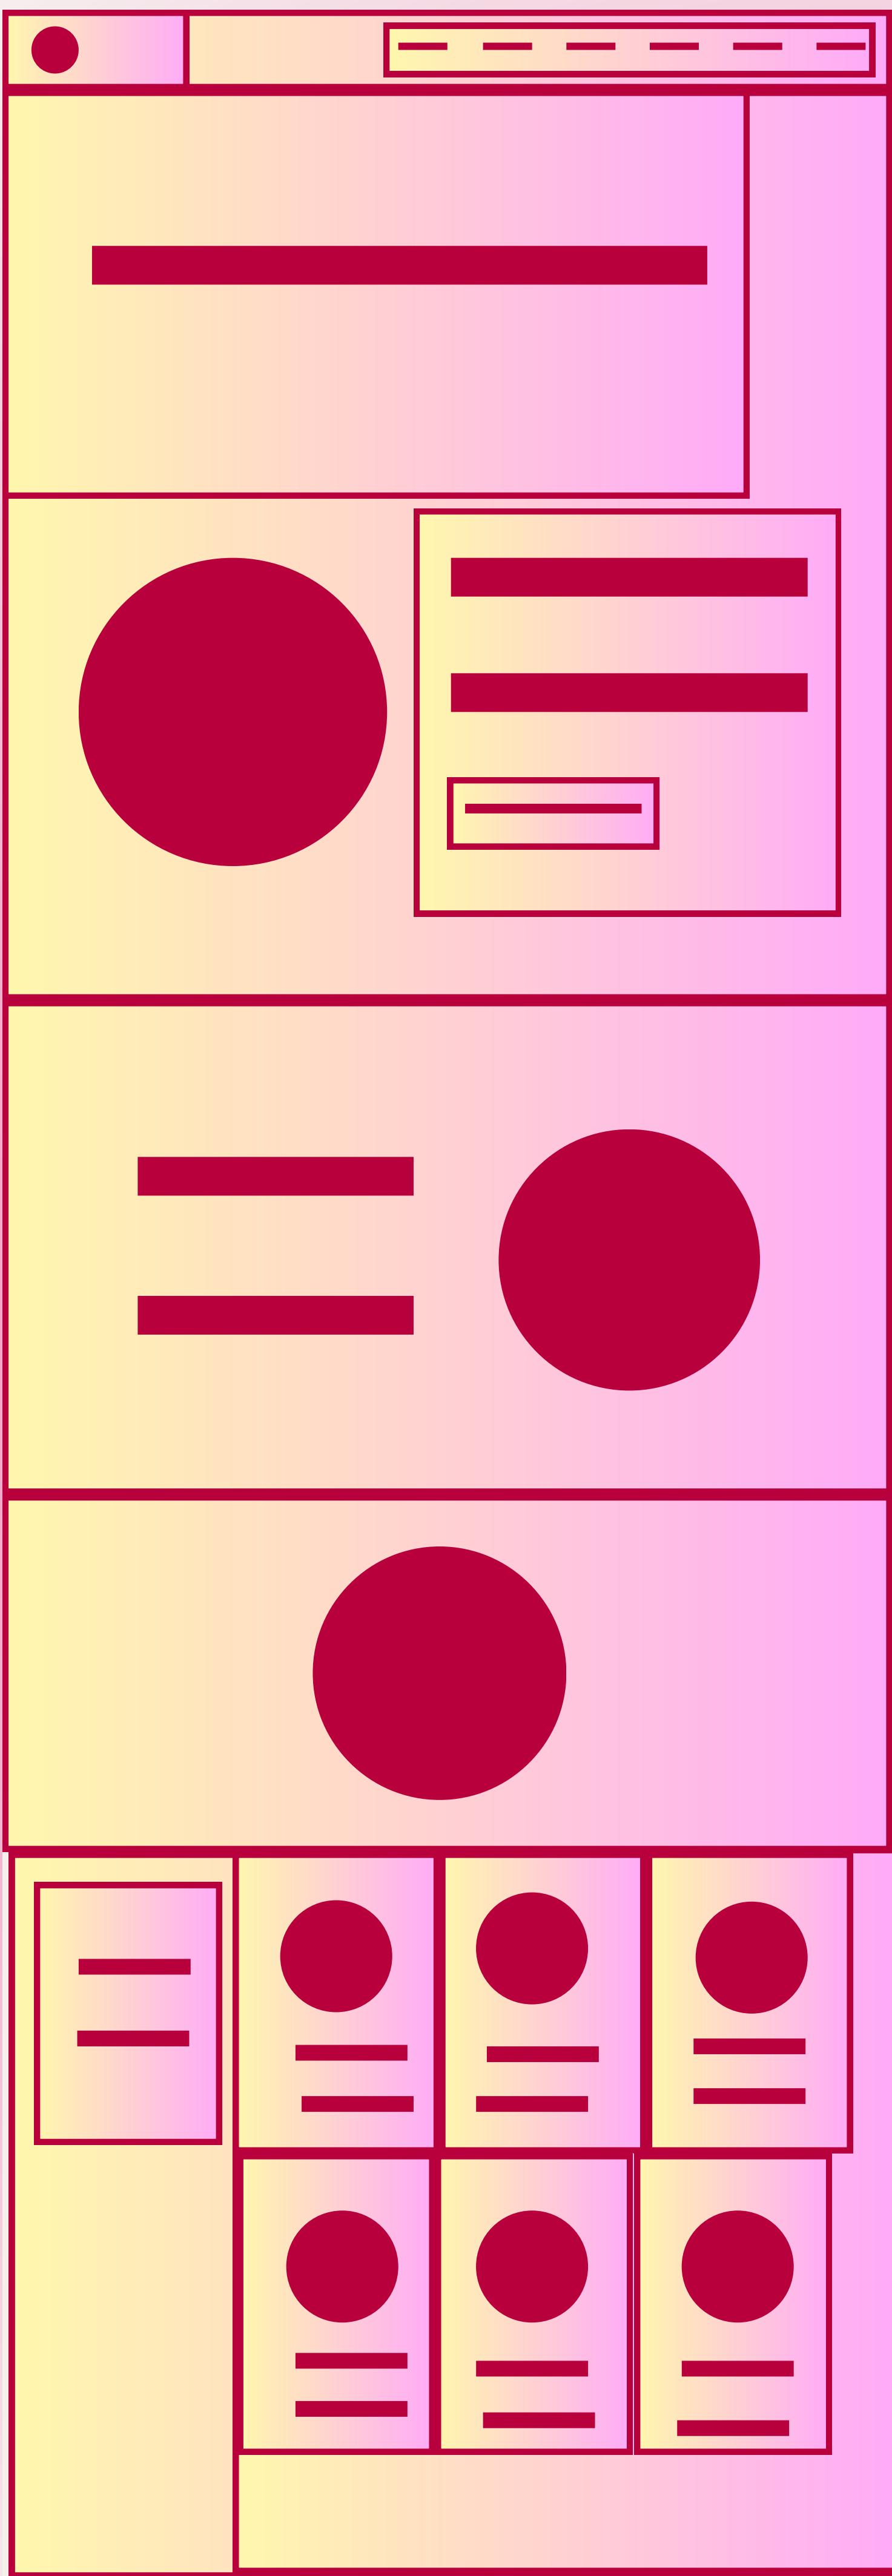

Managed hosting

Secure, scalable WordPress hosting and support designed for public sector organisations.

WordPress CMS

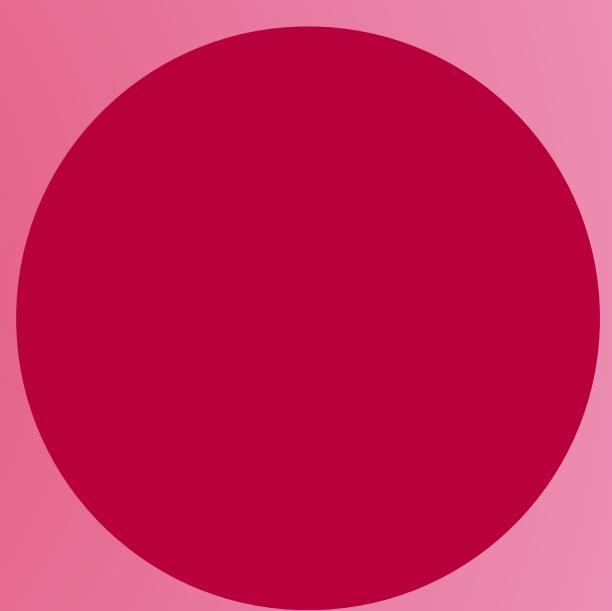

The enterprise WordPress agency of choice for large-scale public sector websites and intranets.

Accessibility comes as standard.

At Mixd, we specialise in web accessibility and have been designing accessible websites that meet WCAG standards for almost 20 years. Designing and building accessible digital services is a key feature of our delivery process, aligning fully to the Government Service Standard. As well as offering accessibility training and testing within projects, we also offer accessibility audits and consultancy to support compliance with the Public Sector Bodies Accessibility Regulations.

Simple. Fast. Inclusive.

01

Simple:

We test and prototype to understand a problem which enables us to re-orientate around what people actually need and then deliver on it.

02

Fast:

Our obsession with efficiency will optimise load times and data consumption thereby improving the end-user experience.

03

Inclusive:

We consider the barriers different groups of users might face when trying to use your service, identifying pain points, gaps and opportunities.

“

It was important that our new website not only met accessibility regulations but was also visually engaging. We are absolutely thrilled with the outcome.

James Sharp

Communications Manager – Mid and South Essex Integrated Care Board

”

Leading supplier of digital services to NHS organisations.

- Mid and South Essex Integrated Care System
- North West Ambulance Service NHS Trust
- Guy's and St. Thomas' Education and Events
- Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust

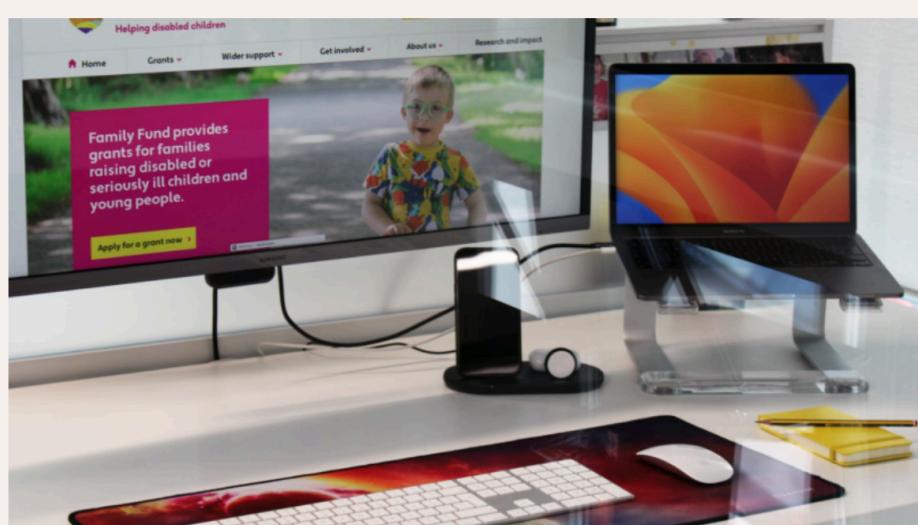

We also work with other public sector entities and charities.

From the NHS and healthcare, through to education, government, charities and the wider public sectors.

Our work:

Collaboration is really important to us. We work in partnership with our clients and we're proud of the results we achieve together.

Family Fund Redesigning for a smoother user journey with Family Fund

Family Fund is the UK's largest charity providing grants and services to low-income families raising a disabled or seriously ill child.

We can help you with:

Designing NHS websites and intranets.

With two decades of experience designing NHS websites we know what works and what doesn't. We also think long term – building sustainable digital solutions so you're ready for the future.

Responding to an accessibility monitoring demand.

If you've received a demand from the Government Digital Service (GDS) website accessibility monitoring team, we can provide accessibility auditing, training and help fixing common errors.

Solving digital transformation problems.

We'll help you connect with your audiences and apply design thinking to understand your problem and your users' needs so you can find the best way forward.

Rapid digital service design.

From strategy, prototyping, UI, UX, impact measurement and analytics, we'll support you to craft end-to-end user journeys, track your progress and make continuous improvements.

Let's work together:

Have a project in mind or want to find out more? We're always happy to have a chat to see how we can help. Book a call today to speak with our team.
